Dear Sir,

I am writing this to express my strong interest in being the next Full Stack Developer at Research Grid Ltd. With my skills and background, I am confident that I will quickly surpass your expectations for this role.

I recently-finished full stack web developer course from Masai School which has shaped my code evaluation and website development knowledge, and I have the required skills outlined in the job description. I have advanced proficiencies in Knowledge of multiple front-end languages and libraries (e.g. HTML/ CSS, JavaScript) And Knowledge of back-end languages (e.g. Node.js) and JavaScript frameworks (e.g. React)

And I have also worked in many databases (e.g. MySQL, MongoDB), web servers (e.g. Apache), and UI/UX design.

Besides, I'm comfortable in both front-end as well as back-end coding languages. I have the ability to work with a team and am very excited to work as a part of an international team.

Please let me know if there is anything further you need from me.

Thank you for your time and consideration.
